

SPIDER BOX

A bag developed for the transport and storage of lighter ropes, like access or climbing ropes.

ROPE BAG

DESCRIPTION

The SPIDER BOX has a large opening, for an easy access to the rope, and a flexible protection with drawstring closure. Two mesh panels provide good ventilation of the ropes. There also is a large transparent pocket for papers, to display the name of the climber or any other useful information.

Stowing ropes in the bag is quick. As for the protection, it is large and flexible, so it folds over easily and doesn't get in the way when you are stowing the ropes.

The bag is carried with 2 long handles.

The SPIDER BOX comes in two sizes: 20 L and 35 L. The 20 L version can hold up to a 60 m rope (depending on diameter), the 35 L version is often used for longer ropes (e.g. access ropes).

TECHNICAL INFORMATION

Capacity	20 L	35 L
Material	1680 D PVC-coated polyester fabric (Reach) PVC-coated polyester mesh Polyester straps and protection Reinforced polyamide tanka	
Colours	Blue (with black protection)	Grey (with black protection)
Dimensions	Ø 28 cm / 30 cm high (Ø 11 in x 11.8 in)	Ø 33 cm / 30 cm high (Ø 13 in x 11.8 in)
Weight	380 g (13.4 oz)	480 g (17 oz)
