**STIHL**

# STIHL SGA 30.0 BATTERY SPRAYER FOR PRIVATE USERS

**ASII**  
SYSTEM

## BENEFITS AND SALES ARGUMENTS

**Automatic and constant pressure for even application of liquids** - Convenient, energy-saving and time-saving work without manual pumping. Liquid agents are effectively applied in constant quantities

**Precise dosing thanks to infinitely variable pressure adjustment (1.5 - 2.5 bar)** - Pressure can be adapted precisely to the requirements of the respective application. The amount of liquid applied can be optimised, thus saving resources (e.g. pesticides)

**Reduced energy consumption due to automatic switch-off** - If the tank is empty or the appliance is not used for a longer period of time. Easier and more convenient operation for the customer. Reduces energy consumption and extends battery service life. Increases the service life of the appliance and reduces maintenance costs

**Adjustable nozzle** - Spray jet can be adapted to different applications - from a fine mist for sensitive plants to spot treatment

**Telescopic lance** - Can be adapted to the situation as required and can also reach areas that are difficult to access. Supports ergonomic working by adjusting to the optimum working height

## TECHNICAL DATA

RATED VOLTAGE / BATTERY SYSTEM	[V]	10,8 (AS)
BIN CAPACITY	[L/GAL]	5 / 1,25
DEVICE WEIGHT WITHOUT BATTERY	[KG/LBS]	2,1 / 4,6
MAX. OPERATING WEIGHT WITH BATTERY AND FILLED	[KG/LBS]	7,1 / 15,6
MAX. PRESSURE	[BAR/PSI]	2,5 / 36
OPERATING PRESSURE	[BAR]	1,5 - 2,5
BATTERY OPERATING TIME WITH AS 2	[MIN]	30
DEVICE DIMENSIONS (LENGTH X WIDTH X HEIGHT)	[MM]	200 x 195 x 634

## GENERAL INFORMATION

PART NUMBER	SA09-011-7015
RRP INCLUDES AS2 BATTERY & AL CHARGER	£149
