## BATTERY WATER CONTAINER FOR MOBILE CUT-OFF MACHINE WATER SUPPLY

**ASIIII**  
SYSTEM

IPX4

CONSTANT  
POWER

### BENEFITS AND SALES ARGUMENTS

**Automatic and constant pressure for TS water container** - Convenient, energy-saving and time-saving work without manual pumping. Water is delivered at a constant pressure for up to 7 tanks /30 mins on one AS battery.

**Precise dosing with infinitely variable pressure adjustment (1.5 - 2.5 bar)** - Pressure can be adapted precisely to the requirements of the respective application.

**Reduced energy consumption due to automatic switch-off** - If the container is empty or the appliance is not used for a longer period of time. Easier and more convenient operation for the customer. Reduces energy consumption and extends battery service life. Increases the service life of the appliance and reduces maintenance costs

**4 meters water hose with standard coupling** - Makes it possible to reach different work areas without having to move the container. Coupling fits all STIHL TS and TSA models.

**Pressure release valve** - Internal pressure can be safely released before the pressurised water container is opened

### TECHNICAL DATA

RATED VOLTAGE / BATTERY SYSTEM	[V]	10,8 (AS)
BIN CAPACITY	[L / GAL]	10 / 2,6
DEVICE WEIGHT WITHOUT BATTERY	[KG / LBS]	3,1 / 6,8
MAX. OPERATING WEIGHT WITH BATTERY AND FILLED	[KG / LBS]	13,1 / 28,9
MAX. PRESSURE	[BAR / PSI]	2,5 / 36
OPERATING PRESSURE	[BAR]	1,5 - 2,5
BATTERY OPERATING TIME WITH AS 2	[MIN]	30
DEVICE DIMENSIONS (LENGTH X WIDTH X HEIGHT)	[MM]	260 x 218 x 745

### GENERAL INFORMATION

PART NUMBER	SA09-011-8515
RRP INCLUDES AS2 BATTERY & AL Charger	£229.00
